ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.*

(54) Title: PROCESS FOR THE PRODUCTION OF COMPOSITIONS CONTAINING RIBONUCLEOTIDES AND THEIR USE
AS FLAVOURING AGENTS

(57) Abstract: The present invention describes a process to produce a composition containing 5'-ribonucleotides wherein a mi-
croorganism is subjected to autolysis under conditions at which a substantial part of the RNA remains in a form degradable into
5'-ribonucleotides and at which a substantial part of the RNA remains associated with the cell wall fraction. Said cell wall fraction
is recovered by a solid/liquid separation method and the RNA associated with said wall fraction is converted into 5'-ribonucleotides.
The present invention also describes compositions containing 5'-ribonucleotides and their use in food or feed.
